INTRODUCTION

The third edition of R. L. Polk & Co.'s South Bend and Mishawaka City Directory, constituting the issue for 1921, is herewith presented. The volume represents a careful enumeration of the residents and business interests of the two cities and as careful a compilation of the result. The work has had the advantage of the unrivaled resources, facilities and organization of the publishers, who are leaders in this class of publications. Their imprint on hundreds of Directories is a guarantee and assurance of excellence, completeness and reliability. A City Directory being in modern business and social life an absolutely essential work of reference, it is meet that such a work should be produced by an organization whose efforts are entirely devoted to the publication of directories, as advantage is taken by them of all modern methods and improvements in directory production, thus making it possible to render the best directory service.

The Directory embodies several distinctive features, as follows:

THE BUYERS' GUIDE, printed on tinted paper and included in pages 45 to 132; also lettered pages, opposite page 868, contain the advertisements and business cards of the more progressive firms in South Bend and Mishawaka, classified according to lines of business. This feature is one of exceptional value to the buyer. "The Directory is the common intermediary between buyer and seller."

THE MISCELLANEOUS DEPARTMENT, pages 25 to 43, include important data concerning city and county officials, public and private institutions, banks, cemeteries, churches, courts, hospitals and homes, libraries, schools, newspapers, parks, public buildings, halls, postoffice, railroads, secret and benevolent societies and other information relating to every civic and social activity in the territory covered by the Directory.

THE STREET AND AVENUE GUIDE AND DIRECTORY OF HOUSEHOLDERS extends from page 133 to page 236.

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations is embraced in pages 237 to 788.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 789 to 868; this feature of the Directory shows the various manufacturing, mercantile and professional occupations alphabetically arranged under headings appropriate to the class of business pursued.

THE MISHAWAKA CITY DIRECTORY will be found on pages 869 to 1028, the alphabetical list of names of citizens and business interests, Street and Householders' Guide and Classified Business Directory of Mishawaka being compiled in the same order as the South Bend Directory.

STATISTICAL

ACCURATE FIGURES ABOUT SOUTH BEND

Furnished by South Bend Chamber of Commerce

SOUTH BEND is located 86 miles east of Chicago at a point where the St. Joseph River, one of the most picturesque streams in America, flowing down from Michigan, makes its "south bend" and turns northward to the Great Lakes. It is the county seat of St. Joseph County as well as its largest city.

Altitude: 722 feet.

Area: (City proper) 15.74 square miles.

Assessed valuation: \$133,012,420.

Bonded debt: \$1,433,500.

Births: 1,870 for 1920.

Building operations: More than 600 houses erected during summer of 1919; 632 houses erected in 1920. Valuation of 1920 permits, \$4,609,071.

Churches: 63, several missions; all leading denominations.

City Library: Nearly 52,000 accessioned volumes, with a circulation of nearly 300,000 during the last year.

Clubs: Country Club with buildings and golf course, Indiana Club, Knife and Fork Club, Rotary Club, Lions Club, University Club, Federated Women's Clubs and Fraternal Organizations, Y. M. C. A., Y. W. C. A., Kiwanis Club, Chamber of Commerce, American Legion and other veterans' organizations, Boy Scouts of America, Advertising Club, Automobile Club, Press Club and Engineers' Club.

Deaths: 982 for 1920.

Education: 18 grade public schools, \$450,000 High School, vocational school, 12 parochial schools, conservatory of music, three business colleges, free night schools, with Notre Dame University and St. Mary's Academy two miles north of the city. Children in public schools, 11,718.

Financial institutions: 11 banks and trust companies, with total deposits \$21,667,155.34; total capital stock, \$2,661,700; total surplus and undivided profits, \$1,575,317.07, and total clearings for 1920, \$97,495,626.

Farms: In the heart of the largest mint producing area in the world. High-bred live stock center. Numerous truck farms produce vegetables for Middle West cities.

Hospitals: Two hospitals, County Infirmary Orphans' Home.

Hotels: Oliver, 245 rooms; Jefferson, 120 rooms; nine smaller hotels.

Industries: Over 200 distinct products are turned out by 250 establishments, involving \$70,180,000 invested capital, with annual wages of \$31,072,000, and producing annually \$75,180,000 in manufactured goods.

Newspapers: News-Times—morning, evening and Sunday; circulation, daily, 17,000. Tribune—evening, circulation, 17,500. Several weekly publications.

Population: 70,983 (1920 census); rate of increase (1910-1920), 32.2 per cent.

Postal service: Government building; 10 postal stations. Window service at main office from 7:00 a. m. to 8:00 p. m. Gross receipts for the calendar year ending December 31, 1920, \$415,236.57; amount received for money orders issued, \$1,398,493.55; amount of money orders paid, \$906,090.19; Postal Savings Depository, with \$113,169 deposits; area served with city mail delivery, 14 square miles; 8 rural routes; 114 employees; 32 mails received daily; 30 mails dispatched daily; 4 mail deliveries in business district and 2 in residential sections daily; 9 collections in business section daily; 4 automobiles; 2 motorcycles and 1 mail wagon; screen wagon service, with three motor trucks.

Power, light and gas: St. Joseph River, developing 25,000 hydroelectric horsepower from four dams in this vicinity, most of this power available for South Bend. Power rate, \$1.00 per month per horsepower attached, and 1.1c to 6c per kwh; rate for commercial lighting, 3½c to 8½c per kwh; rate for residence lighting, 4c to 8½c per kwh; gas rate, \$1.25 per 1,000 cubic feet.

Parks and playgrounds: Ten parks, with an acreage of 366; ten playgrounds under direction of Municipal Recreation Committee, with 19 instructors and directors.

Public safety: Fire department, 9 stations, 94 men, motorized equipment; police department, 82 men and one policewoman, three men in health department, superintendent of police and fire alarms, humane officer, police ambulance, auto patrols and motorcycle squad.

Social service: Federation for Social Service, supporting 11 charitable and philanthropic organizations.

Streets: Total length of streets, alleys and avenues in city limits, 228.65 miles; total length of street pavement, 104½ miles; lighted by 1,501 public lights; main streets illuminated by boulevard cluster lights; 601 arc lights are used, 514 tungsten, and 289 cluster lights.

Tax rate: \$2.16 per hundred, covers city, county, school and state; assessment basis, 100 per cent; city valuation for 1920, \$131,004,540.

Telephone: Indiana Bell manual exchange; 6,587 stations; average calls per day, 60,000; long distance calls per day, 3,500. Direct connection with New York, Chicago, San Francisco and inter-

mediate points. Automatic exchange, 3,987 stations connected with six exchanges; total average calls per day, 48,000.

Theatres: Oliver Opera House, plays best road companies and occasional high-class movies; Orpheum, Keith circuit vaudeville; Blackstone Theatre; eight motion picture houses.

Transportation: Seven steam roads—Lake Shore; Grand Trunk; Michigan Central; Pennsylvania (Vandalia); Illinois division of the New York Central; New Jersey, Indiana and Illinois; Lake Erie and Western, entering the city from Indianapolis over the tracks of the C. I. & S. Electric lines; Chicago, South Bend and Northern Indiana; Chicago, Lake Shore and South Bend; Southern Michigan. These lines provide service between this city, Chicago, and Indianapolis, and important points on the shore of Lake Michigan. Steam and electric roads provide 180 trains daily, 90 in and 90 out. Exceptional freight facilities over main trunk and division lines connecting with practically every road centering in the Chicago district.

Water supply: The city's water supply is drawn from about 100 artesian wells; plant valuation, \$1,800,000; normal pumping capacity for 24 hours, 24,000,000 gallons. South Bend drinks and puts out fires with pure, cold, sparkling water that is the envy of less fortunate cities. The water rate is 90 cents per 1,000 cubic feet, meter rentals 30 cents; sliding scale for large users of water. Number of fire hydrants, 1,085.

POPULATION

The United States census of 1920 gave South Bend a population of 70,983. These figures represent an enumeration taken nearly two years previous to the issue of this edition and only show the enumeration of residents of the city proper (that is within corporate lines), but do not include those of the outlying suburban districts, which are included in the enumeration for this Directory, as the residents of such districts are one with South Bend in social and business affiliation and they are for all practical purposes of identical interest. In estimating the population of a municipality of the character of South Bend, which is chiefly industrial, the publishers adopt the multiple $2\frac{1}{2}$ to account for women and children who are not enumerated, which multiple is found to be conservative, and applying it to 31,798, the number of individual names in this Directory, it is ascertained that the population of Greater South Bend is 79,495.

AUTOMOBILE MANUFACTURE

The new factory of the Studebaker Corporation at South Bend, a plant which is declared by officials of the corporation to be the most modern automobile manufacturing establishment in the world, was officially opened in June, 1920, with the city of South Bend observing a public holiday in honor of the event.

The buildings have a total floor space of 1,206,799 square feet. A further idea of the huge proportions of the plant may be had from the following dimensions of some of the larger buildings: Sub-

assembly, 192 by 528 feet; stamping department, 183 by 528 feet; machine shop, 425 by 576 feet, and forge shop, 161 by 742 feet.

THE SOUTH BEND CHAMBER OF COMMERCE

The South Bend Chamber of Commerce is a live organization which has had much to do with the progress of the city and is responsible for its more modern tendencies. It is representative of the commercial, professional and industrial interests of the city and had its inception in a desire to promote the vital interests of the city. It has been behind every forward movement for civic and economic betterment, and has achieved success in all lines of endeavor in that direction. The Chamber invites correspondence by home-seekers and those looking for industrial locations.

DIRECTORY LIBRARY

In the Chamber of Commerce Building, 216-218 West Colfax avenue, a library of City Directories has been established by the publishers, where, through the courtesy of the officials of the Chamber, it is open for free use of patrons. From time to time other Directories will be added, and as new editions appear they will replace the older ones. A cordial invitation is extended to all subscribers to the South Bend City Directory to make use of the library whenever information is desired concerning an individual, firm or corporation located in another city.

MUNICIPAL PUBLICITY

Advertising South Bend

Copies of this Directory are placed by the publishers in Directory Libraries, which are maintained in all the larger cities of the country, where they are readily available for reference use by the public. There they serve as perpetual advertisements of South Bend, for business men the country over realize that the City Directory represents the community as it really is.

Secretary's Office, 125-135 Church St., New York City

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employes.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

\$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.

*Ford**The Universal Car*

Remember that when you bring your Ford car to us for mechanical attention that you get the genuine Ford service—materials, experienced workmen and Ford factory prices. Your Ford is too useful, too valuable to take chances with poor mechanics, with equally poor quality materials. Bring it to us and save both time and money. We are authorized Ford dealers, trusted by the Ford Motor Company to look after the wants of Ford owners—that's the assurance we offer. We are getting a few Ford cars and first come first to receive delivery.

COME AND SEE US**EDUCATIONAL****ST. MARY'S COLLEGE AND ACADEMY**

NOTRE DAME P. O., INDIANA

One Mile West of the University of Notre Dame
Two Miles North of South Bend, Ind.

Recognition by the Indiana State Board of Education**COLLEGE—Standard****ACADEMY (High School)—Commissioned****NORMAL DEPT.—Accredited**

St. Mary's is devoted to the development of our 6020 students, as mentioned in the girls entrusted to its care.

Complete courses in COLLEGIATE, ACADEMIC AND PREPARATORY DEPARTMENTS, MUSIC, ART, HOUSEHOLD ARTS, and ATHLETICS.

Many features of this school of high ideals, its broad campus, and well-equipped commodious buildings cannot be touched upon in the limited space of this announcement. The President, therefore, cordially invites correspondence from parents, paying daughters to educate, and will take pleasure in mailing an illustrated catalog and descriptive literature.

NEWSPAPERS

The News Times

carries more advertising than any newspaper in Northern Indiana or Southern Michigan.

This fact may mean several things which you can judge for yourself; it surely means two things—that appreciation of The News Times' clean-cut advertising policy is steadily growing in the estimation of careful advertisers and—

—that the kind of people who read The News Times are the kind who can afford to buy.

If you have an article you're willing to stand back of, let The News Times stand back of you in introducing it to desirable South Benders.

POLK'S

South Bend Street and Avenue Guide and Directory of Householders

1921

By the decimal system of numbering, one hundred numbers are allotted to each square. The center of the city for street numbering purposes is at the junction of Washington avenue and Michigan street. Streets running north and south are numbered north and south from Washington avenue, while those running east and west are numbered east and west from Michigan street. The numbers begin with 101 and alternate from one side of the street to the other. Each square begins with an additional hundred; thus 101, 201, 301, etc. In some instances the blocks are longer, there being no intersecting street, and the numbers then run higher. The odd numbers are on the north side of the streets running east and west, and on the west side of streets running north and south. All other streets not commencing at Washington avenue or Michigan street are numbered in accordance with this system.

HISTORICAL

MISHAWAKA

This thriving city is located on the St. Joseph River in the county of the same name, and on the C. & G. T. and New York Central Lines and C. S. E. & N. I. (Electric) R. R. southeast of South Bend, Indiana. It has all the features of a modern, wide-awake city, including churches of the leading denominations, educational advantages of the highest class, water works, fire and police departments, electric light, paved streets, sewerage system, 5 banks and trust companies with capital and surplus of \$615,000, and deposits of \$5,756,000, a weekly and a monthly newspaper, a packing house and a brass foundry. Among the manufactures are shoes, rubber boots, iron beds, aluminum castings, machine tools, power and transmission machinery, gasoline engines, window screens, galvanized tanks, rubber, windmills and plows.

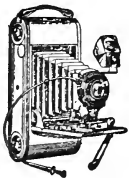

The germ from which the city of Mishawaka sprang was the town of St. Joseph Iron Works, which was located on the south side of the St. Joseph River. It was laid out by Almonson M. Hurd, who is generally regarded as the founder of the city of Mishawaka. The name of the town was taken from that of a company of the same name organized by Mr. Hurd and others for the manufacture of iron from bog ore, which was found in considerable quantities in "the swamp just south of town." The town was incorporated January 31, 1835, and five town trustees were elected.

There were three other independent towns. Mishawaka, "Barbee's Addition," also on the south side of the river, joined the "Original Town" on the east. The third, "Fowler's Addition to Mishawaka," was on the north side of the river opposite St. Joseph Iron Works, Indiana City, also on the north side of the river and west of the latter addition, was laid out June 28, 1836, and acknowledged by the proprietors, Joseph Battell and Lawrence Grove Lawrence.

By an act of the legislature, approved February 17, 1838, all of these towns and their several additions were united into one municipality and christened "Mishawaka." From the reincorporation and union of the towns the people continued to live under a town government for a period of 64 years. But, as the town grew in population, and as new and diversified interests manifested themselves with the years, the people prepared to take upon themselves the obligation and secure the advantages of a city form of government. Accordingly, on January 23, 1899, a petition was presented to the board of town trustees, asking for the incorporation of the town of Mishawaka as a city. At the election, held February 20, 1899, to determine the question of incorporation, 702 voted for incorporation and 336 against it. The board divided the new city into five wards, the present number, and ordered notice to be given for the election of city officers on the first Tuesday of May, the same being May 2, 1899. The board of town trustees met for the last time May 8, 1899, closed up town affairs, then turned the government over to the newly elected officers and adjourned sine die.

St. Joseph Iron Works was incorporated in 1835, when the population of the town was 328. When the several towns and additions were united under the name of Mishawaka in 1838, the population was 756. The population each decade since, as shown by the United States census reports, follows: 1840, 1,166; 1850, 1,412; 1860, 1,498; 1870, 2,617; 1880, 2,640; 1890, 3,375; 1900, 5,500; 1910, 11,908; 1920, 15,195; but the federal census was taken in January, 1920, or nearly two years prior to the enumeration for this Directory, and only included the inhabitants within the corporate limits, whereas the enumeration for this Directory included the suburban districts about and adjoining Mishawaka, as the residents of those districts are identical in

interest, association and business connection with the parent city. There are 7,023 names in the Mishawaka Directory, and applying the multiple 2½, which is found conservative, to account for women and children who are not enumerated, it is ascertained that the population for the territory covered by the canvass is 17,547.

MISHAWAKA CITY GOVERNMENT

The city of Mishawaka is divided into five wards. The First and Third wards have three voting precincts each, while the others have one each. A description of the boundaries of each ward follows:

First Ward—The First Ward includes all that territory lying south of the center line of Second and the center line of Second extended eastward to the city limits and lying east of the center line of Main and center line of Main, extended south to the city limits.

Second Ward—The Second Ward includes all territory lying south of the St. Joseph River and north of the center line of Second, between the east and west limits of said city of Mishawaka, said ward extending east to the east line of the said city limits and west to the west line of the said city limits.

Third Ward—The Third Ward includes all that territory lying south of the center line of Second and the center line of Second, extended west to the city limits and lying west of the center line of Main, and the center line of Main, extended south to the city limits, said territory extended west and south of said lines to city limits.

Fourth Ward—The Fourth Ward includes all that territory within the city limits, now established, lying north of the St. Joseph River and west of a line running as follows: Beginning on the center line of Bridge at the north end of the bridge across the St. Joseph River, and running thence north to the center line of Joseph, thence east on the center line of Joseph to the center line of Sarah, thence north on the center line of Sarah, and the center line of Sarah, extended north to the city limits.

Fifth Ward—The Fifth Ward includes all the territory within the city limits, as now established, lying north of the St. Joseph River and east of a line running as follows: Beginning at the center line of Bridge, at the north end of St. Joseph River bridge and running thence north to the center line of Joseph, thence east on the center line of Joseph to the center line of Sarah, thence north on the center line of Sarah and the center line of Sarah extended north to city limits.

City Officials

The Mayor, Clerk, Treasurer, Judge, a Councilman from each ward and two at large are elected every four years. The term of each begins the first Monday in January following the election. The last city election was held Tuesday, November 4, 1917.

The City Attorney and other officials are appointed by the Mayor and approved by the Council.

Mayor—R. W. Gaylor.
City Controller—Walter Michael.

Ex-Mayors of Mishawaka

Manuel M. Fisher, 1900-1902.
Melville W. Mix, 1902-1906.
Charles Frank, 1906-1910.
John A. Herzog, 1910-1914.
City Clerk—Joseph DeLorenzi.
City Treasurer—Willis L. Kimball.
City Attorney—Ralph H. Jernegan.
City Engineer—James L. Stephens.
City Judge—Ralph S. Feig.
City Electrician—A. R. Klein.
Chief of Police—V. J. Pfender.

A natural by-product of the Directory business is the compilation of Mailing Lists. If interested, ask for our Free "List of Mailing Lists." R. L. POLK & CO., Detroit, Mich.

Detroit Directory Library—Every Directory Office is a Branch

HOW DIRECTORY LIBRARIES ARE USED

He Wanted to Buy a Home

"Who sells ready-cut houses?" said a man to us the other day. "There is nobody listed under that heading in the Detroit City Directory, but I know there is some concern out in the State which sells them."

Reference to the Michigan State Gazetteer (State Business Directory) soon told him that the concern he wished was the North American Construction Company, of Bay City, Mich. "I will write and order what I want at once," was his parting remark.

Where one instance of this sort comes to our attention, the same things are happening over and over again wherever a City Directory is to be found.

If you will trace back new customers to find out how they found you, City Directory classified lists will receive their share of the credit.

The classified section of the City Directory is the greatest buyers' guide on earth. Any one classification may secure the largest order and the best customer, any or every day in the year, and its omission may lose a large order at any time.

Every day, all over the country, thousands of people are consulting Polk's Directory Libraries. We offer you the free use of our directories for single reference.

Many Directories of various cities are bought by progressive concerns, who desire up-to-date mailing lists, classified by trades and otherwise.

Ask for a free copy of our "Directory of Directories," or for our "List of Mailing Lists."

A \$50,000.00 Order

A traveling man from St. Louis called on a wholesale dry goods house in St. Paul, to sell salvage goods. They did not deal in that class of goods.

Later the firm dissolved. One partner decided to engage in that line of trade and wanted to buy a complete stock, amounting to about \$50,000.00.

He called at our office and examined the St. Louis Directory to find the name of the house the agent represented. The classification "Salvage Goods" did not show it.

We, being more familiar with the classifications in a Directory, found it under "Bankrupt Stocks," much to the delight of the jobber, and a tremendous order was placed with the salvage house.

Secretary's Office, 125-135 Church St., New York City

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employes.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

\$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.

LAKE LINES

For Business and Pleasure Trips Use D. & C. Line Steamers

The Delights of a Lake Trip

REST after work is necessary to human endurance, and holidays are a wise economy. The great lakes of America offer more vacation opportunities than any other source in the country. The steamers of the Detroit and Cleveland Navigation Company are unrivaled in point of elegance, comfort and quality of service—the perfect freedom offered by the saloon and promenade decks, the commodious state rooms, luxurious furnishings and excellence of cuisine make life aboard these floating palaces a solace to the weary mind and body.

WHERE YOU CAN GO

Daily service is operated between Buffalo and Detroit, and Detroit and Cleveland. During July and August special daylight trips between Detroit and Cleveland.

RAILROAD TICKETS AVAILABLE

Tickets reading via Michigan Central, Wabash and Grand Trunk Railway between Buffalo and Detroit and via New York Central Railway between Detroit and Cleveland will be honored for transportation on D. & C. Line Steamers in either direction, except tickets sold at special rates. Send 2 cent stamp for illustrated pamphlet and Great Lakes Map. Address R. G. Stoddard, G. P. A.
